

Voice of the Patient

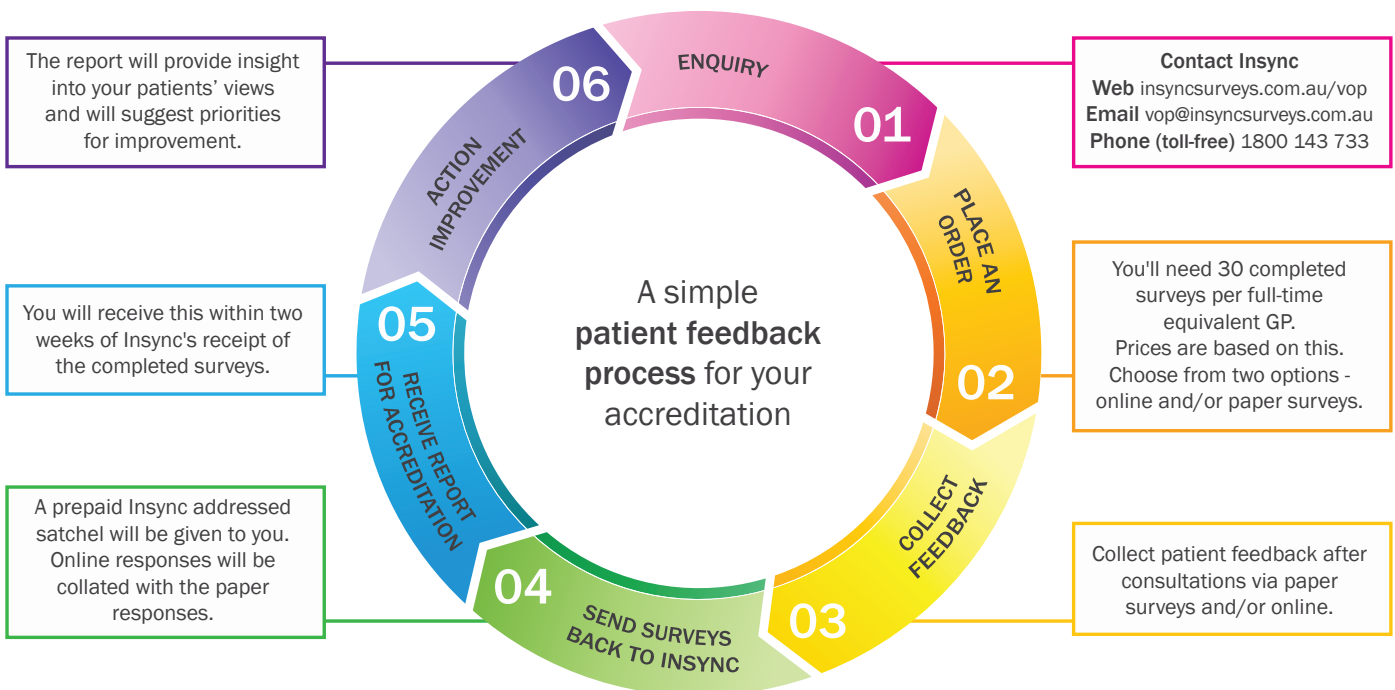

Feedback for your practice accreditation

- Easy to complete with flexible options to suit your practice's needs
- Leading edge survey design and technology platform
- Practical insights for improving your practice and service to patients

Insync's Voice of the Patient is the simple way to collect patient feedback for your practice accreditation. Practice accreditation is stressful and occupies the valuable time of busy practice staff. Let us lighten the load and help you improve the service you provide your patients.

Our Voice of the Patient offering is applicable to RACGP's 4th and 5th edition standards.

Insync's patient feedback process

Insync is a leader in healthcare patient experience and engagement research. We've been delivering patient satisfaction surveys for over 20 years. Get in touch today to start collecting your patient feedback.
